EDUCATION

**Bachelor of Information Management (BIM)**

[2022-2026]

KIST College

SKILLS

| HTML | CSS | JavaScript |

| React | Next.js |

| MongoDB | Express.js |

| Node.js | Python |

SOFT SKILLS

Problem-Solving

Adaptability | Collaboration

Effective Communication

HOBBIES

- Coding and Development
- Workout
- Traveling

- Hiking
- Gaming
- Reading Books

LANGUAGES

- English
- Nepali

About

A dedicated Bachelor of Information Management (BIM) student, passionate about technology and data, with hands-on experience in programming and project development through academic projects and personal initiatives. Eager to learn and apply knowledge in real-world settings, with a keen interest in expanding skills in web development and data management.

Experience

Self-Employed - [2022 - Present]

Full Stack Developer – E-commerce Site

Personal Project

Developed and maintained several responsive web applications using React.js, Node.js, and MongoDB, enhancing user interfaces and optimizing backend performance. Integrated third-party APIs and services, ensuring seamless data communication and enhancing functionality.

Backend Developer – Chat Application Project

Academia Project

Designed and implemented a chat-application using Node.js and Express, with a MongoDB database to handle user authentication, messaging, and chatroom management. Developed and tested middleware, controllers, and routes, ensuring clean, modular code for scalability and maintainability.

Hackathon Participant

Academic Project

Participated in multiple hackathons, building innovative web applications under tight deadlines and collaborating in cross-functional teams. Led the development of a chat application with real-time messaging functionality using React.js, MongoDB, and Socket.io.

Frontend Developer – Youtube clone

Personal Project

Developed a YouTube-inspired web application focused on frontend functionality using React.js and Tailwind CSS. Designed a responsive and intuitive interface with video browsing, search, and playback capabilities. Integrated the YouTube API to fetch and display video content, ensuring smooth user interactions.

Certifications

React Web Development [KIST] – [2024]

Completed a course on building dynamic web applications with React. Gained expertise in component-based architecture, state management, and routing. Developed skills in creating reusable components, managing data flow, and integrating APIs for improved user experiences.

Linux Virtualization for Machine Learning [KIST] – [2023]

This comprehensive Linux training program at KIST is designed to equip participants with the essential skills needed to navigate and operate within a Linux environment efficiently

Git Training [KIST] – [2022]

Learned essential Git commands and workflows for version control. Gained practical experience in managing repositories, branching, and collaborating on projects using Git.
